Effective business documentation can give you a big advantage.

● **Faster Growth**

Do your assembly instructions and user guides make it easy for your customers to use your products?

Happy customers will spread the word and generate more business. Word-of-mouth is good advertising—and it's free!

● **Higher Quality**

Employees who understand what to do and how to do it are empowered to work faster and better. Well-written, complete information enables higher-quality work and more output.

● **Greater Profit**

When employees and customers can find and quickly absorb the information they need, your business is free to run more smoothly with lower operating costs... and you'll see greater profit.

Your company's documents should be helping you make money!

Almost every business needs clear, up-to-date written materials—policies, process guides, user instructions. But not every business needs a full-time staff writer, and not every manager has time to write.

RDH Communications is your solution. Call today, and find out how professional documentation can help you:

- Enhance employee performance
